Subject: Records pertaining to the use of prepublication review processes in Intelligence Community agencies, etc.

Benjamin Good
ACLU

Dear Mr. Good:

This letter responds to your Freedom of Information/Privacy Act (FOI/PA) request dated March 03, 2016, addressed to the Drug Enforcement Administration (DEA), Freedom of Information/Privacy Act Unit (SARF), seeking access to information regarding the above subject.

To fulfill your request for "*policies, standards and guidance related to prepublication review; final legal analyses of past, present or proposed prepublication review requirements, final decisions of officials conducting prepublication reviews; statistics relating to prepublication-review....; titles, subject matters, and dates of works submitted for prepublication review; and information about enforcement proceedings instituted or contemplated on the basis of violations of prepublication-review requirements, including breach-of-contract actions, agency administrative proceedings, and civil or criminal litigation*", our office forwarded a copy of your request letter to the Office of Chief Counsel (CC), the Office of Professional Responsibility (OPR), the Office of Congressional and Public Affairs (CP), Board of Professional Conduct (HRB), and the Office of Deciding Officials. Based upon all available information, we have determined that CC, OPR, HRB, CP and the Deciding Officials are the DEA components that may have records responsive to this portion of your request.

As a result of our search, the processing of your request identified certain materials that will be released to you. Portions not released are being withheld pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and/or the Privacy Act, 5 U.S.C. § 552a. Please refer to the list enclosed with this letter that identifies the authority for withholding the deleted material, which is indicated by a mark appearing in the block next to the exemption. An additional enclosure with this letter explains these exemptions in more detail. The documents are being forwarded to you with this letter.

Furthermore, your request for "*correspondence with former agency employees (or their representatives) who have submitted materials for prepublication review since January 1, 2009*", is not a reasonable description of a record. This portion of your request is so broad that it envelops every possible record that could or would be maintained by any of the 500 offices and/or decision units that currently comprise DEA. Correspondence, memoranda or other records of communications may be retrieved based upon the date, title or name, author, recipient, subject matter of the record, and the particular office(s) that may maintain the records. Moreover, our ability to locate a particular communication, in correspondence form, is limited, since correspondence files are generally maintained for a period of two (2) years. Thus, any correspondence, depending on the office to which it was sent, may no longer exist.

Similarly, communications also entails e-mails. DEA may retrieve information based upon a particular employee's e-mail account. However, to locate e-mails and/or correspondence electronically stored that may mention prepublication review, if they exist, requires a full text search of all DEA e-mail accounts, or a search of all documents previously stored as a result of requests for information. To retrieve e-mails or other records of communications pertaining to prepublication review requires additional particulars and information. Without identifying the sender and/or recipient, and/or a specific date would require a search of more than 400 servers and 15,000 e-mail accounts, using the search term, "prepublication review." Then each e-mail would have to be manually read to determine whether the contents reflect a "communication." Such a search would encompass a period of months and cause an interruption in normal DEA operations.

The rules and regulations of the Drug Enforcement Administration applicable to Freedom of Information Act requests are contained in the Code of Federal Regulations, Title 28, Part 16, as amended. They are published in the Federal Register and are available for inspection by members of the public.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. *See* 5 U.S.C. § 552(c). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

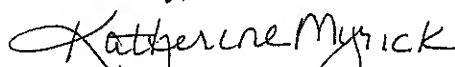

As you are aware, the FOIA provides for three categories of requesters. *See* 5 U.S.C. § 552(a)(4)(A)(ii). Department of Justice regulations define a "representative of the news media" as "any person or entity organized and operated to publish or broadcast news to the public." *See* Production or Disclosure of Material or Information, 80 Fed. Reg. 18099, 18111 (Apr. 3, 2015) (to be codified at 28 C.F.R. pt. 16.10(b)(6)). We have determined that you are making this request as a "representative of the news media," therefore; you will not be charged search fees.

In response to your request for a fee waiver, the Fee Waiver Committee met on March 31, 2016 and based on all available information, you have not met the requirements for a waiver of reproduction fees as stipulated in 28 C.F.R. § 16.11; therefore, your request for a fee waiver is denied. However, the costs for processing this request did not exceed the amount set out in 28 C.F.R. §. 16.11(c), therefore, no fees will be charged for the processing of the enclosed response.

If you are not satisfied with my response to this request, you may administratively appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, DC 20530-0001, or you may submit an appeal through OIP's FOIAonline portal by creating an account on the following web site: <https://foiaonline.regulations.gov/foia/action/public/home>. Your appeal must be postmarked or electronically transmitted within 60 days of the date of my response to your request. If you submit your appeal by mail, both the letter and the envelope should be clearly marked "Freedom of Information Act Appeal."

If you have any questions regarding this letter, you may contact Government Information Specialist Deshelia S Wallace on 202-307-4264.

Sincerely,

Katherine L. Myrick, Chief

It is very important that DEA's publications reflect the highest standards of quality and clearly articulate the goals, objectives and achievements of the agency. The establishment of a Publication Review Board will ensure that DEA publications reflect the best of DEA.

Our publications represent and demonstrate the significant dimensions of DEA investigations, operations and programs. Whether the intended audience is the public, state/local/Federal law enforcement entities, or Federal policymakers, it is critical that our publications are accurate, consistent with DEA policy, and professionally convey information. In the interest of streamlining, eliminating duplication, and fiscal constraint, it also is essential that, as an agency, we apply guidelines that will allow us to prioritize what we publish.

Consequently, effective July 1, 1995, I am establishing a Publications Review Board. Please be advised that all DEA field- or headquarters-generated publications, reports, pamphlets, brochures, posters, etc., intended for external audiences must be approved by this Board. The distribution of general interest documents (e.g., newsletters) intended exclusively for DEA audiences does not require the Board's review, but courtesy copies to the Board are required.

The Board will be comprised of senior representatives from the Operations Division, the Intelligence Division, the Operational Support Division, and the Office of Congressional and Public Affairs (CP), as well as field representation when possible. It will hold scheduled monthly meetings to expedite the publishing process, with supplemental meetings if required.

Instructions for submission are being developed and will be forthcoming. Questions regarding the specific aspects of this process may be directed to CP's (b)(6) who will serve as the technical advisor for this board.
